

Recommendation for Magic Outdoor

I would like to highly recommend both 'Magic Outdoor' as company and i'Violeta Macheva' as its manager, who I have regular dealings with.

I have used Magic Outdoor to manufacture for me safety screens, which my company supplied and fitted in taxis in the UK.

The whole process from design to actually receiving the products, I would say Violeta kept me fully informed and Magic Outdoors delivered with such precision that I was kept happy as their customer and my customers were kept happy by me.

We kept in touch via 'Zoom' meetings and this way we all understood what I wanted and what Magic Outdoor in the face of Violeta and her team needed to do.

I would not hesitate to use them again and again and for this reason I have used them several times over the past twelve months and will continue to do so.
